

Licen#ă locală pentru add-on-ul de analiză avansată a vibra#iilor - AVA

moneo RTM-AVA raw data LIC

moneo|RTM AVA Toolbox

Aplicatie	
Aplica#ie	moneo RTM add-on for extended vibration monitoring on machines and installations
Configurare	Condition monitoring through standardised thresholds and raw data recording
	Selection of machine parameters for monitoring on pumps, fans and compressors
	Standardised thresholds according to DIN ISO standard
	Triggering raw data recording in the event of damage based on threshold-based rules
	Additional raw data recording according to user-defined, time-based settings
Conectivitate	Deactivation of thresholds and rules in case of maintenance
	Raw data recording for ifm IO-Link sensors type VVB and ifm diagnostic electronics type VSE
	Thresholds according to DIN ISO standard for ifm IO-Link sensors type VVB

Licen#ă locală pentru add-on-ul de analiză avansată a vibra#iilor - AVA

moneo RTM-AVA raw data LIC

Gestiunea datelor	Download of the raw data in the file formats CSV, JSON and BIN
	Maximum storage capacity of 500 raw data recordings
	When the storage capacity has been reached, the oldest raw data recordings are automatically overwritten
Monitorizare	Automated ticket creation when the threshold according to DIN ISO standard has been reached
Interfa#a cu utilizatorul	Wizard for setting up thresholds and raw data recording
	vizualizarea datelor despre vibra#ii în intervalul de timp #i frecven#ă
Analysis	analiza frecven#elor specifice pentru diagnosticarea avansată a vibra#iilor
Software / Programare	
Limba	germană; engleză; Franceză; Italiană; Spaniolă; Portugheză; Chineză; Japoneză; Coreană; Polonă
Suport date	Descărcare
Tipul de licen#a	licen#ă unică
Categorie licen#ă	versiunea completă la fa#a locului
Condi#ii sistem	
Soft aditional necesar	moneo software download
	moneo OS license
	moneo RTM license
	moneo edgeConnect AL
	moneo infopoints
